Security Audit Report

Audit prepared for

BABY DOGE HEAD

Completed on

Nov 25, 2025

SPYWOLF.CO
@SPYWOLFNETWORK
@SPYWOLFNETWORK

OVERVIEW

This goal of this report is to review the main aspects of the project to help investors make an informative decision during their research process.

You will find a a summarized review of the following key points:

- ✔ Program's source code
- ✔ Team transparency and goals
- ✔ Website's age, code, security and UX
- ✔ Whitepaper and roadmap
- ✔ Social media & online presence

The results of this audit are purely based on the team's evaluation and does not guarantee nor reflect the projects outcome and goal

- SPYWOLF Team -

BABY DOGE HEAD

PROJECT DESCRIPTION

According to their website:
"Hello! I'm $BABYDHC, the young son of #DogeHeadCoin ($DHC). I'm brand new to being a memecoin, so I have no roadmap, website, or social media yet. I only have a SpyWolf audit and my father's backing. Let's grow together and build something powerful from scratch! All unsold tokens will be burned. 89% of raised funds will go to liquidity, and the liquidity pool WILL BE BURNED.
Also, earn 3% commissions with your referral link on friends' investments!"

Release Date: 2025.11.25 20:01 (UTC):

Our Program Review Process

The contract review process pays special attention to the following:

- Testing the programs against both common and uncommon vulnerabilities
- Assessing the codebase to ensure compliance with current best practices and industry standards.
- Ensuring program logic meets the specifications and intentions of the client.
- Cross referencing program structure and implementation against similar programs produced by industry leaders.
- Thorough line-by-line manual review of the entire codebase by industry experts.

Blockchain security tools used:

- Solana Program Library (SPL)
- Manual Auditing / Sec3 / Neodyme
- Rust Compiler
- Anchor Framework

CURRENT STATS

Authority Information

Mint Authority: N/A *(Supply is fixed — permanently revoked)*
Freeze Authority: N/A *(Permanently revoked)*
Update Authority: B8E15NYtKfJ7k2XcLTQvwj7CGLCmLpXdsugZnFCNHpXe
Creator: B8E15NYtKfJ7k2XcLTQvwj7CGLCmLpXdsugZnFCNHpXe
Owner Program: TokenkegQfeZyiNwAJbNbGKPFXCWuBvf9Ss623VQ5DA
Token Standard: SPL Token (tokenStandard = 2)

Token Details

- **Primary Sale Happened:** 0 *(No — not marked as complete)*
- **Is Mutable: No**
  - Since *isMutable = 0*, the token's metadata is permanently immutable. The update authority **cannot** change the name, symbol, or URI.
- **Seller Fee Basis Points:** 0
  - Indicates **no royalties** on secondary sales.
- **Edition Nonce:** 252 *(Metadata edition feature; not relevant to supply)*
- **Metadata URI:**
  https://ipfs.io/ipfs/bafkreicuibnxhnva324owef6wqmypdy5wa54six6fwvytwirhznzwg55he
- **Current Supply: 1,000,000,000** BABYDHC
  (Mint authority revoked, so supply is permanently fixed)

Transaction History

Creation Time:
Nov 24, 2025 – 19:30:46 UTC

Creation & First Mint Transaction Hash:

2tsRsUp7hrb3y3f7wAGNnEBRgDamKKUVBXsvCC8BsBdT6PQudvsLaEPgoX4KQKN8fiKb1WF1EbqdyZWwZvsQdbfR

First Mint Authority:
B8E15NYtKfJ7k2XcLTQvwj7CGLCmLpXdsugZnFCNHpXe

CODE REVIEW

Code	Title	
STPUPA	Update Authority	**Passed**
STPTFA	Transfer Fee Configuration Authority	**Passed**
STPMTA	Mint Authority	**Passed**
STPFRA	Freeze Authority	**Passed**

VULNERABILITY ANALYSIS

ERRORS FOUND

STPUPA: Update Authority

Passed

The Update Authority is set to:
B8E15NYtKfJ7k2XcLTQvwj7CGLCmLpXdsugZnFCNHpXe

Description:
The metadata account shows isMutable: 0. That means the Metaplex metadata is **permanently immutable**: the update authority can no longer change the token's **name**, **symbol**, or **URI**. The authority can still perform limited actions such as marking primarySaleHappened and certain creator/collection verifications, but cannot alter the token's identity or redirect the metadata.

Vulnerability:
None of significance related to metadata tampering. Because the metadata is immutable, the update authority **cannot** rug by changing the image/URI, renaming the token, or swapping the brand to something malicious.

- Recommendation:
  - No critical action needed. If you want to be maximally conservative, the team can still **revoke the update authority** entirely so it holds zero permissions, but from an investor-safety perspective the main risk (metadata changes) is already removed.

VULNERABILITY ANALYSIS

ERRORS FOUND

STPTFA - Transfer Fee Configuration Authority

Passed

Description:
The token is using the classic SPL Token program: TokenkegQfeZyiNwAJbNbGKPFXCWuBvf9Ss623VQ5DA.
Transfer-fee configuration is only available on **Token-2022** mints, not on this standard SPL program. Therefore, there is **no Transfer Fee extension** and no Transfer Fee Configuration Authority exists.

Vulnerability:
None. The team cannot secretly enable or modify transfer fees because the token program simply doesn't support that feature for this mint.

- Recommendation:
  - No further action is needed

VULNERABILITY ANALYSIS

ERRORS FOUND

STPMTA - Mint Authority

Passed

Description:
Mint Authority: **N/A (revoked / null)**
The mint authority has been permanently removed, fixing the supply at **1,000,000,000 BABYDHC**. No one can mint additional tokens.

Vulnerability:
None. There is no risk of supply inflation from this mint; any increase in circulating supply can only come from moving existing tokens, not minting new ones.

- Recommendation:
  - No action required. Keep good transparency around any team or treasury wallets holding significant allocations.

VULNERABILITY ANALYSIS

ERRORS FOUND

STPFRA - Freeze Authority

Passed

Freeze Authority: **N/A (revoked / null)**
With no freeze authority, no address can freeze token accounts associated with this mint.

Vulnerability:
None from a centralization/freeze standpoint. The team cannot arbitrarily freeze user wallets or trading of the token via the SPL freeze mechanism.

- Recommendation:
  - No further action is needed

WEBSITE

Website URL
http://doge-head.com/

Domain Registry
http://www.publicdomainregistry.com

Domain Expiration
2026-04-24

Technical SEO Test
Passed

Security Test
Not passed. No SSL present

Design
Nice color scheme and layout.

Content
The information is clear and to the point for this meme coin website.

Disclaimer

This report shows findings based on our limited project analysis, following good industry practice from the date of this report, in relation to cybersecurity vulnerabilities and issues in the framework and algorithms based on smart contracts, overall social media and website presence and team transparency details of which are set out in this report. In order to get a full view of our analysis, it is crucial for you to read the full report.
While we have done our best in conducting our analysis and producing this report, it is important to note that you should not rely on this report and cannot claim against us on the basis of what it says or doesn't say, or how we produced it, and it is important for you to conduct your own independent investigations before making any decisions. We go into more detail on this in the disclaimer below – please make sure to read it in full.

DISCLAIMER:
By reading this report or any part of it, you agree to the terms of this disclaimer. If you do not agree to the terms, then please immediately cease reading this report, and delete and destroy any and all copies of this report downloaded and/or printed by you. This report is provided for information purposes only and on a non-reliance basis, and does not constitute investment advice.
No one shall have any right to rely on the report or its contents, and SpyWolf and its affiliates (including holding companies, shareholders, subsidiaries, employees, directors, officers and other representatives) (SpyWolf) owe no duty of care towards you or any other person, nor does SpyWolf make any warranty or representation to any person on the accuracy or completeness of the report.
The report is provided "as is", without any conditions, warranties or other terms of any kind except as set out in this disclaimer, and SpyWolf hereby excludes all representations, warranties, conditions and other terms (including, without limitation, the warranties implied by law of satisfactory quality, fitness for purpose and the use of reasonable care and skill) which, but for this clause, might have effect in relation to the report. Except and only to the extent that it is prohibited by law, SpyWolf hereby excludes all liability and responsibility, and neither you nor any other person shall have any claim against SpyWolf, for any amount or kind of loss or damage that may result to you or any other person (including without limitation, any direct, indirect, special, punitive, consequential or pure economic loss or damages, or any loss of income, profits, goodwill, data, contracts, use of money, or business interruption, and whether in delict, tort (including without limitation negligence), contract, breach of statutory duty, misrepresentation (whether innocent or negligent) or otherwise under any claim of any nature whatsoever in any jurisdiction) in any way arising from or connected with this report and the use, inability to use or the results of use of this report, and any reliance on this report. The analysis of the security is purely based on the smart contracts, website, social media and team.
No applications were reviewed for security. No product code has been reviewed.
